

Sell E-series

1.6ltr beverage maker

E-series • P/N 64771-001-003

Designed for the preparation of tea or instant coffee, our low maintenance E-series beverage maker features rapid reheat cycles and low power consumption.

Simple to operate with basic, easy to understand controls and procedures, each unit incorporates important control and safety devices to help ensure reliable, efficient use. The beverage-maker is capable of producing 1.6 litres of water at 84°C in approx. 1 min 30 sec, while a heated base plate keeps the contents of the stainless steel serving jug at a constant temperature, ready for use.

Available with a centrally positioned or offset (left-hand) faucet.

overall dimensions

2.75kW (115v/200v, 400Hz, 3 phase)

1min 30sec for 1.6ltr of water for tea or instant coffee at 84°C (at 25psig)

approx. 1min 15sec to next heat cycle

91°C +/-1°C water temperature

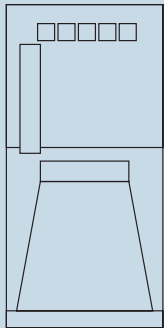

6.7kg dry weight

H 12"/305mm x W 6.3"/160mm x D 14.5"/368mm

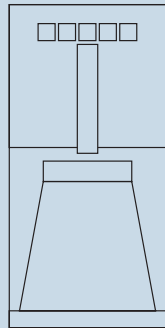

(interface requirements as per envelope/installation drawing 64771-005)

key features:

- 1.6 litre capacity stainless steel water tank
- powder-coated aluminium alloy outer housing
- safety lock with anti-spillage seal for serving jug
- level sensor to prevent overfilling
- heated base plate
- manually operated faucet
- electronic control circuitry with two independent overheat protections to ensure correct water temperature
- automatic cut-off in the event of no water supply
- pressure safety valve (max. 70psig)
- automated venting – filling and draining
- rail mounted (P/N 64759-151)
- quick disconnects (water/electrical supply) for easy maintenance
 - with self-closing water system
