

Sell E-series Sell X-series 1.6ltr coffee makers

E-series • P/N 64753-001-003

All our coffee makers feature simple operation and quick brew times, producing high quality coffee from standard 70g coffee pillows. Choose from our efficient E-series products or the performance X-series.

Each coffee maker incorporates features that prevent spilling, ensure correct fill levels, address all the safety issues and make the operation and maintenance of the units as simple as possible. By listening to our customers and understanding their needs, each model includes significant improvements.

Sell coffee makers: engineered to be better.

1.6ltr coffee makers

• E-series

• X-series

2.75kW (115v/200v, 400Hz, 3 phase)

2min 15sec for 1.6ltr of coffee at 84°C (at 25psig)

approx. 1min 15sec to next brew cycle

91°C +/-1°C water temperature

E-series 7.25kg / X-series 7.55kg

H 12"/305mm x W 6.3"/160mm x D 14.5"/368mm

(interface requirements as per envelope/installation drawings:

E-series 64753-005 / X-series 66001-005)

key features:

- 1.6 litre capacity stainless steel water tank
- powder-coated aluminium outer housing
- retaining mechanism for brew cup and jug while brewing and for take-off and landing
- safety lock with anti-spillage seal for serving jug
- level sensor to prevent overfilling
- heated base plate
- manual water faucet for tea making
- electronic control circuitry with two independent overheat protections to ensure correct brew temperature
- automatic cut-off in the event of no water supply
- pressure safety valve (max. 70psig)
- automated venting – filling and draining
- rail mounted (P/N 64759-151)
- quick disconnects (water/electrical supply) for maintenance – with self-closing water system

high performance X-series:

Our X-series coffee maker provides:

- **improved pot level sensor**
- **additional reliability and performance** with a series of internal upgrades including a new design water tank and spray nozzle for more efficient heating, and new components to simplify cleaning and maintenance
- **integrated descaling unit** to increase time in service
- **operating time counter**
- **new solenoid valve** to ensure proper sealing

Sell has been designing and manufacturing aircraft galleys and galley inserts since 1954. Our pedigree is unrivalled and today we work hard to ensure that all our products benefit from this experience, our modern technology and manufacturing capabilities so that, in turn, they might perform reliably and to the highest standards in the most demanding of environments.
