2.5ltr coffee tank coffee maker

• E-series

2.78kW (115/200v, 400Hz, 3 phase)
3min 15sec for 2.5ltr of coffee at 80°C (at 25psig)
approx. 2min
91°C +/-1°C water temperature
9.25kg dry weight
H 12"/305mm x W 6.3"/160mm x D 14.5"/368mm
(interface requirements as per envelope/installation drawing 64781-005)

key features:

- 1.6 litre capacity stainless steel water tank
- powder-coated aluminium outer housing
- 2.5 litre coffee tank with:
 - level sensor to prevent overfilling
 - sight glass for visual level indication
 - easy to use faucet
 - simple release for cleaning
- heated base plate under coffee tank to maintain serving temperature
- manual water faucet for tea making
- electronic control circuitry with two independent overheat protections ensuring correct brew temperature
- automatic cut-off in the event of no water supply
- pressure safety valve (max. 70psig)
- automated venting – filling and draining
- rail mounted (P/N 64759-151)
- quick disconnects (water/electrical supply) for maintenance
 - with self-closing water system
